

READY FOR RESULTS ?

CLEARING ADVICE

Results day brings with it a rollercoaster of emotions... excitement, nerves, anticipation, and sometimes even disappointment.

Even the most well-prepared amongst us might find ourselves in a different position than expected upon receiving exam results. You can use clearing if you didn't receive any offers, didn't receive any offers you wanted to accept, didn't meet the conditions of your offers, you declined your firm place through your UCAS application, or you're applying after the 30th June.

CLEARING IS OPEN

Clearing is already open now and closes on 21st October 2024. Some courses are already listed on the UCAS website Clearing section, whilst other establishments will release more courses on results day. Get ahead now and have a look at potential places, so you can plan ahead, as different establishments may have different timelines and application processes. Some places even have a pre-registration available to make the process of Clearing run more smoothly

TOP TIPS !

if you find yourself in the position of applying for a place through Clearing it is important to remember these top tips

Don't rush! You might feel panicked and as though you need to find a place as soon as possible, but take a moment to pause and talk through your options with a trusted family member, friend, or tutor at college or sixth form.

Be prepared. Get all of the basics ready before you start the process. Think phone, laptop, chargers, pen and paper, food and drink, login details for UCAS, and a bucket full of patience.

Look up all your options using your UCAS account. The 'View matches' button will show you the courses UCAS has personally matched you to, whilst the search tool will allow you to browse thousands of courses with places available through Clearing.

Look after yourself. Remember, applying to university and higher education establishments, results day, and preparing for starting your studies, wherever you end up, it is essential to prioritise your mental health. UCAS has a mental health and well-being hub on their website to help support you through this time.
